

# Sustainability Minor

*The Sustainability Minor at Cal Poly Humboldt transcends disciplines to complement any major. Exploring real-world problems from a variety of perspectives, the minor incorporates curricula from across the natural and social sciences, as well as the humanities and the arts. Its interdisciplinary nature catalyzes intellectual inquiry, systems thinking, and students' agency to tackle the most pressing socio-ecological challenges of our time.*

## **Why enroll in the Sustainability Minor?**

- Complements any major
- Provides a pathway to fulfill GE and DCG requirements
- Builds skills and knowledge relevant to any career pathway
